**Our Collaboration with Burlington Schools**

## About Us

After a huge Academic success at Chinchwad branch, We are commencing our Journey at Somatane, Pune. We, at Pratibha International School & Junior College, work with the guiding principle of nurturing young minds with a balanced combination of bookish knowledge and practical training. Academic excellence & outdoor activities like skating, karate, rifle shooting, etc. are an integral part of the school life of our students. Our students are also encouraged and given ample opportunities to participate in cultural events, hobby classes, cleanliness drives, educational tours, and social welfare programs.

We conduct regular PTA meetings to ensure healthy and open communication between parents and teachers, regular students.

## In Collaboration with Burlington Schools

Since 2022, Pratibha International School has been walking hand in hand with Burlington English. Burlington English is a publisher that cares about learners' aspirations. The publication is made up of three parts: a course book, a grammar book, and a workbook.

**To Strengthen the Mind, soul, Head, Heart and Hands.**

Honourable Shri Abdul Kalam, former Indian President, envisioned India as a Super Power by 2020, with 60% of its population falling within the 20-40 age group. To realize this dream, we aim to nurture our youth into respectful and honorable citizens.

## **CEO's Address**

**Pratibha International School and Jr. College**

We nurture their academic and holistic development to overcome challenges from technology and global competition. Our commitment is to provide high-quality education, advanced infrastructure, instill moral values, and promote overall development through sports and culture, fostering competent global professionals and leaders.

**Dr. Deepak V Shah**  
CEO, Pratibha International School and Junior college

## **Our Mission & Vision**

To create and manage advanced educational facilities that nurture young minds, ensuring holistic development through moral education, personality growth, professional skills, and modern teaching methods. Our goal is to empower youth with high-quality technical education, shaping them into responsible citizens and advancing knowledge.

- ★ Conducting camps for the lower grades- developing leadership skills and event management skills

## Skill Development

**Food & Nutrition**

This course syllabus fosters food and nutrition awareness among 11th and 12th-grade students, enabling them to pursue careers as effective nutrition educators and responsible Indian citizens.

**Yoga**

Incorporating yoga into the 11th and 12th-grade curriculum offers students tools for mental and physical well-being, supporting their dreams of becoming yoga instructors and responsible Indian citizens in the face of global challenges.

**Artificial Intelligence**

AI, a computer science field, creates intelligent machines that learn and adapt, processing data much faster than humans. Its impact spans diverse domains, from healthcare innovations and sustainable farming to education and environmental conservation. AI holds limitless potential to enhance the world when wielded responsibly.

## Tech Skills Development

**Information Technology**

A well-equipped computer lab staffed by certified educators, and IT as a vocational subject from grades 6th to 12th, assists our students to master their programming skills and avail better job opportunities in the future.

**Computer Science**

The syllabus fosters:

- a) Computational thinking
- b) Data types utilization
- c) Algorithm appreciation
- d) Basic computer systems knowledge (architecture, OS, and cloud computing)
- e) Cyber ethics, safety, & crime awareness
- f) Technology's societal impact and gender/disability considerations.
