ABOUT US

After a huge academic success at Chinchwad branch, we are commencing our journey at Somatane.

We, at Pratibha International School & Junior College, work with the guiding principles to impart quality education with a blend of modern technology and traditional values by incorporating modern technology and traditional values, practices into the curriculum.

We offer quality, NEP 2020 CBSE aligned curriculum which focuses on Critical Thinking, Creativity & Collaboration.

We believe that a child's formative years should be brimming with love, positivity and foundation for lifelong learning. This holistic approach ensures that students develop not just their intellectual abilities but also their Physical, Social, Emotional and Spiritual well-being.

CEO'S ADDRESS

Dr. Deepak V Shah

*CEO, Pratibha International School
and Junior College*

*"To Strengthen the Mind, soul,
Head, Heart and Hands."*

Inspiring curiosity, creativity, and lifelong learning is the motto of Pratibha International School, Somatane.

This is a perfect place where students thrive, learn, and grow. We offer a vibrant educational experience with a focus on academic excellence and character development with value education. Our dedicated teachers inspire curiosity and foster a love of learning, while our supportive community encourages students to reach their fullest potential. With a range of extracurricular activities, sports, and arts programs, students have countless opportunities to discover their passions and develop lifelong skills. We build strong foundation for a brighter future. Join Pratibha International School, Somatane and your journey of excellence starts here. We help students reach new heights every day. We believe in Nurturing minds and shaping future. Explore a part of journey that prepares students for success in school, life, and beyond. Discover, learn and grow with us.

PRINCIPAL'S ADDRESS

Dr. Prabhadevi Vidap

*Principal, Pratibha International
School and Junior College*

*"Learning is not the product of teaching.
Learning is the product of the
activity of the learner."*

"We want education by which character is formed, strength of mind is increased, the intellect is expanded and by which one can stand on one's own feet."

- Swami Vivekananda

We strongly feel that education is a blend of academic excellence and creativity and as the Principal of the School; my motto is to encourage and empower our students to grow as a strong, reflective and humble individuals with discerning minds, prepared to make a mark in all spheres of life.

With this belief, we prioritize creative thinking for the students upliftment. Our school is committed to making education a joyful, growth oriented experience rooted in strong values. We aim to be a guiding light, inspiring academic excellence while nurturing compassion and kindness. Alongside academic excellence, we support students unique potential with sessions on moral values, ethics, culture and tradition for their holistic development.

OUR MISSION & VISION

To create and manage advanced educational facilities that nurture young minds, ensuring holistic development through moral education, personality growth, professional skills, and modern teaching methods. Our goal is to empower youth with high-quality technical education, shaping them into responsible citizens and advancing knowledge.

- ★ Transportation facility

SKILL DEVELOPMENT

FOOD & NUTRITION

This course syllabus fosters food and nutrition awareness among 11th and 12th-grade students, enabling them to pursue careers as effective nutrition educators and responsible Indian citizens. To realize this dream, we aim to nurture our youth into respectful and honorable citizens.

YOGA

Incorporating yoga into the 11th and 12th-grade curriculum offers students tools for mental and physical well-being, supporting their dreams of becoming yoga instructors and responsible Indian citizens in the face of global challenges.

ARTIFICIAL INTELLIGENCE

AI, a computer science field, creates intelligent machines that learn and adapt, processing data much faster than humans. Its impact spans diverse domains, from healthcare innovations and sustainable farming to education and environmental conservation. AI holds limitless potential to enhance the world when wielded responsibly.

TECH SKILLS DEVELOPMENT

A well-equipped computer lab staffed by certified educators, and IT as a vocational subject from grades 6th to 12th, assists our students to master their programming skills and avail better job opportunities in the future.

The syllabus fosters:

- Computational thinking
- Algorithm appreciation
- Basic computer systems knowledge (Architecture, OS, & Cloud Computing)
- Data types utilization
- Cyber ethics, safety & awareness
- Technology's societal impact and gender/ disability considerations
